Community and Economic Development Director Shane Hope, 425.744.6281

FOR IMMEDIATE RELEASE through October 3, 2008

Moratorium Renewed on Telecommunication Facilities

A moratorium on wireless telecommunication facilities in Mountlake Terrace's downtown was renewed by the City Council after a public hearing on September 15.

This action extends the moratorium through March 14. By then, the City hopes to consider amendments to its standards for siting tall monopoles and other wireless telecommunication facilities in the downtown area.

After adoption of a new Town Center Plan last year, the City Council directed that regulations be updated to reflect the plan's vision of attractive redevelopment and mixed use.

For more information, contact the Planning Division at 425.744.6266 or llavoie@ci.mlt.wa.us.
