Planning and Community Development Director Shane Hope, 425.744.6281

FOR IMMEDIATE RELEASE through August 1, 2008

Sustainability Strategy To Be Presented

A Draft Sustainability Strategy for Mountlake Terrace will be presented at a public open house on July 28 at 6:00 PM and a Planning Commission meeting at 7:00 PM in the Council Chambers. Comments are invited.

The Sustainability Strategy is being developed to identify what else the City can do to be a good environmental steward while ensuring community livability and economic health. This includes ways the City can save on fuel and electricity, encourage green building, and take other actions.

Sustainability is a term that describes taking care of the environment, economy, and social fairness all at the same time being able to live comfortably without sacrificing the resources of future generations.

The City of Mountlake Terrace has historically been a leader on environmental issues. For example, the City has an extensive park system, easy access to transit, an active approach to stormwater management, and strong critical area regulations.

To view the new Draft Sustainability Strategy, people may check online at www.cityofmlt.com/sustain. For other information, questions, or comments, call 425.744.6266 or e-mail llavoie@ci.mlt.wa.us.
