(S5.C.2.a)	The City continues to participate in a cooperative effort in the greater Lake Ballinger/McAleer Creek watershed to implement a comprehensive Strategic Action Plan addressing stormwater related issues including

water quality. The effort includes the cities of Edmonds and Lake Forest Park along with several interest groups in the watershed. The City of Mountlake Terrace provides all administrative support to these meetings including making all arrangements for these meetings. The City's web site allows for general citizen input to the SWMP through a comment link on the Storm Water Division web page. The City launched and maintained a web page devoted to the LID update. The web site allowed comments to be received from the public. Three comments were received. Prior to a public open house in September, a press release was sent to local papers about LID and it announced the public open house. Staff made personal phone calls, extended in person invitations, and sent an e-mail to invite over fifty developers and professionals (engineers, architects, etc.) to a separate, more technically oriented public meeting. The Public is also invited to participate in the ongoing work to implement a Strategic Action Plan for the Lake Ballinger/McAleer Creek Watershed. Mountlake Terrace is a member and participant on the Lake Ballinger/McAleer Creek Watershed Forum. Additional public input was welcomed in 2015 as part of the Ballinger Park Master Plan, and public input into the Master Plan implementation will continue to be welcomed.
